

OPTOTRONIC®

Step-Dimmable LED Drivers

Features and Benefits

- Five fixed output current options per model for simple output flexibility
- Step-DIM – 100-50%
- Two hot wires – neutral and ground
- Traditional form factor – 11" x 1.2" x 1.0" (L x W x H)
- Universal input voltage – 120-277V_{ac} 50/60Hz
- UL Class 2 output for safe operation

Specifications and Certifications

Ordering Information

Item Number	Original Item Number	Ordering Abbreviation	Max. Output Power (W)	Output Current Range (mA) ¹	Output Voltage Range (V _{dc})	Dimming Control	Dimming Range
*2743YP	79376	OT30W/CS1050C/UNV/SD/L	30	250, 350, 500, 700, 1050	25-55	Step-Dim	50/100%
2743YR	79377	OT50W/CS1400C/UNV/SD/L	50	700, 800, 1050, 1250, 1400	25-55	Step-Dim	50/100%

¹ For 1400mA output, the max output power is 47W and the output voltage is 33V.
